

Can You Please Help Me?

I'm **Cinder** and I need some help! I have **Feline Leukemia** and need special care. I was recently rescued from a dangerous street where I was dodging cars and hiding from stray dogs and killer coyotes. I was someone's pet before but they abandoned me. My rescuer took me to be fixed (not knowing that I had already been spayed) and get me vaccinated. I am now current on my shots, am litter box trained, and just want to live in a good home! I would love to be adopted or fostered in a home as an only cat or with other cats that have Feline Leukemia. I know that my days are numbered but I am very, very sweet and would make a great companion for somebody for the rest of my life. All I want is for someone to love me and not abandon me again!

You can read more about me on my blog page at <http://tinyurl.com/yjb9ljy>.

For more information about me, please call Chris at 210-232-2790 or email chrisncats@gmail.com.
